FIVE STAR GOLD FOR TE WAONUI FOREST RETREAT

Te Waonui Forest Retreat in Franz Josef Glacier is proud to announce renewed accreditation to the Qualmark Five-Star standard with a Gold Enviro award.

The luxurious hotel is proudly 100% New Zealand owned. Architecturally designed and constructed to leave the lightest possible footprint on the environment, Te Waonui maintains the highest service and accommodation standards.

Managing Director Brendan Taylor says the company is as proud now of the accreditation and Enviro award as when it was first received two years ago.

“This hotel is a real star. From the service levels to the furnishings to the setting, we’ve poured our heart and soul into this property and this place, and it shows.

“We’re particularly proud of the dedication to the environment and sustainability this property displays,” says Mr Taylor.

“We’re firmly committed to keeping New Zealand clean and green for New Zealanders. From our concerted recycling practices right through to the chemical-free-cleaning, our commitment to the environment is second only to our commitment to our guests.”
